

Structural Engineer

PACE Engineers, Inc. is an employee-owned company providing quality professional civil and structural engineering, planning, surveying, and construction management services from offices in Kirkland and Seattle, Washington and Oregon City, Oregon. We have successfully completed projects for a wide range of clients in both the public and private sectors throughout the Northwest.

We offer a competitive compensation package including medical, dental, short and long term disability, life insurance, 401(k) program, ESOP, paid time off, wellness reimbursement and incentive bonuses.

We are searching for a Structural Engineer to join our Oregon City, OR team as soon as possible.

Responsibilities

The Structural Engineer will be an enthusiastic leader who can successfully manage structural engineering projects including, client relations, planning and design, budgeting, and project staffing. Design will include municipal, residential, and commercial structures. This person will also work directly with the principals in the development of new business.

Qualifications

Qualified candidates will have a well-rounded professional background with experience with the design and construction of building related structures. Design experience should include reinforced concrete, masonry, wood, and steel. Design software knowledge should include RISA 3D and MATHCAD, and ACAD for drafting. Opportunities exist for some bridge and other design work as well.

Education

- Bachelor's degree, Civil Engineering with an emphasis in Structural Engineering
- Registration as a Structural Engineer in Washington and Oregon preferred, Washington required.

Experience

A minimum of ten years of specialized work experience in the structural discipline.
