

STRUCTURAL DESIGN ENGINEER

PACE Engineers, Inc. is an employee-owned company providing quality professional civil and structural engineering, planning, surveying, and construction management services from offices in Kirkland, Everett, and Wenatchee, Washington and Lake Oswego, Oregon. We have successfully completed projects for a wide range of clients in both the public and private sectors throughout the Northwest and beyond.

PACE Engineers, Inc. completes a broad mix of project types and sizes in various market sectors including public works, industrial, ports, architectural, commercial, institutional, as well as contractor and vendor services. Project work includes new buildings, improvements to existing buildings, transit facilities, water treatment facilities, hydraulic structures, single-span bridges, park structures, site structures, seismic certification, and installation of mechanical equipment and utilities.

PACE Engineers, Inc. has an **immediate opening** in our Lake Oswego Structural Group.

What position we need:

Structural Design Engineer - multiple positions and experience levels.

Future team members may apply at: http://bit.ly/Struc_DesEng_LO

What you'll be doing:

- Contribute to the business development program
- Participate in the design and management of projects from beginning to end
